The change is, I think, attributable to Mr. S. A. My attention has been called to a communication signed by members of the Board of Directors of the Louisville and Nash-uille Railroad, in which they are pleased to say they were not willing to serve with me as President last year, and are now unwilling for reasons they assigned, with others of graves magnitude. I had not known before that Mr. duthrie refused to serve with me as President. I thought I had learned from his own mouth that be lad no objection to me, that he did not tatend to be President, and would not be, and the members of the Board knew it. In such an event, if the country, shall prove so barren of material as not to be able to fill their places, it will prove a dreadful catastrophe to the Company.
